OdeSea Outboard trolley

OdeSea TX-65 outboard motor trolley

The smart solution to handle your outboard motor

Traditional outboard trolleys are too large and heavy, difficult to use and almost impossible to carry around in the trunk of a car or stow away on a boat. The ultimate solution has been introduced by us in 2007: the ODESEA outboard motor trolley and has been improved ever since.

The ODESEA trolley is foldable so that it is compact during transport and storage. Unfolding the ODESEA trolley and mounting the outboard motor is quick and simple. Transporting your heavy outboard motor has never been more easy.

The unique patented principle of the ODESEA TX-65 outboard motor trolley combined with a sturdy aluminum frame and smart mounting mechanism provide strength and stability to handle your outboard motor safely and virtually without effort. The ODESEA TX-65 outboard motor trolley can also be used for safely storing and maintaining your outboard.

TX-65

FEATURES & BENEFITS

- Suitable for outboards up to 15 HP
- Use for transport, storage and maintenance
- Ergonomic design, very easy to use
- Patented foldable construction
- Lightweight yet strong and stable
- Adjustable handle, height and track

Technical specifications:

- Material: aluminum frame
- Weight: 4.5 kg
- Dimensions folded: 72 x 30 x 23 cm
- Dimensions unfolded: 104 x 50 x 53 cm
